

The Practitioner's Program Lectures

DIAGNOSTIC SUPPORT & CLINICAL DECISION MAKING

Imaging

1. How to Improve Your Ultrasound Imaging in the Field
2. How to Take Perfect Podiatry Radiographs
3. Practical Abdominal and Pulmonary Ultrasonography – Part I and II
4. Capture and Interpretation of C-Spine Images
5. Radiology of the Fetlock and Pastern

Toxicology

1. Equine Toxins I: GIT, Renal, Hematology and Muscle
2. Equine Toxins II: Liver and Neurologic
3. Equine Chemical Toxins
4. Equine Drug Toxicities I: GIT, Renal, Hematology, and Muscle
5. Equine Drug Toxicities II: Steroids, Dewormers, and Antibiotics

Cardiology

1. Clinical Approach to a Horse with a Heart Murmur: Getting a Diagnosis
2. Clinical Approach to a Horse with a Heart Murmur: Interpretation and Recommendations
3. How to Sedate a Horse with Heart Disease
4. Clinical Approach to a Horse with an Arrhythmia
5. How to Record and Read an ECG Trace
6. CPR in Foals and Adult Horses

Pathology and Laboratory

1. Interpretation of CBC and Biochemistry
2. Clinical Approach to Selecting and Utilizing Point-of-Care Laboratory Tests
3. Clinical Approach to Equine Anemia
4. Increasing Profitability of Laboratory Services

INTERNAL MEDICINE

Internal Medicine

1. Antimicrobial Selection in Equine Practice
2. Clinical Approach to the Horse with Heat Stress
3. Clinical Approach to EGUS: Prevention of Equine Squamous Glandular Disease (ESGD)
4. Clinical Approach to EGUS: Prevention of Equine Gastric Glandular Disease (EGGD)
5. Clinical Approach to Geriatric Medicine
6. Ethmoid Haematomas
7. Blood Gas Analysis

Gastrointestinal & Metabolic Disorders

1. Focus on Sand Enteropathy
2. Clinical Approach to Chronic Diarrhea in the Adult Horse
3. Clinical Approach to the Horse with Weight Loss
4. Equine Metabolic Syndrome (EMS) Part 1: Pathogenesis, Risk Factors, and Management Strategies
5. Equine Metabolic Syndrome (EMS) Part 2: Advanced Diagnostics, Pharmaceutical Interventions, and Owner Compliance
6. Equine Pituitary Pars Intermedia Dysfunction (PPID)
7. Clinical Approach to EGUS: Prevention of Equine Squamous Glandular Disease (ESGD)
8. Clinical Approach to Optimising Omeprazole Efficiency
9. Clinical Approach to Anorexia in the Horse
10. Hyperlipemia and Hyperlipidemia in Equids
11. Clinical Approach to the Starved Horse and Re-Feeding Syndrome

Respiratory Medicine

1. Clinical Approach to the Coughing Horse
2. Clinical Approach to Acute Respiratory Distress
3. Clinical Approach to a Unilateral Nasal Discharge
4. Clinical Approach to Respiratory Noise at Exercise
5. The Horse with Epistaxis

Neuromuscular & Systemic

1. Clinical Approach to Equine Rhabdomyolysis
2. Clinical Approach to Seizures
3. Thyroid Conditions in Horses

EMERGENCY & CRITICAL CARE

Colic

1. Clinical Approach to Colic in the Equine
2. Clinical Approach to Differentiating Colic: Medical vs Surgical
3. Clinical Approach to Abdominocentesis
4. Clinical Approach to Small Colon Impactions
5. Clinical Approach to Standing Flank Laparotomy
6. Medical Treatments for Colic in the Field vs in Hospital

Supportive & Emergency Care

1. Clinical Approach to Supportive Care
2. Clinical Approach to Intravenous Fluid Therapy
3. Clinical Approach to Alternative Fluid Therapy
4. Practical Approach to Blood Transfusions
5. Veterinarian's Management of Flood Injuries in Large Animals
6. Practical Management of Infectious Disease Outbreaks

Anaesthesia

1. How to Perform a Safe Anesthetic
2. Clinical Approach to Applied Pharmacology
3. Clinical Approach to Field Anesthesia
4. Practical Approach to Multi-modal Analgesia
5. Clinical Approach to Intravenous Catheterisation

Surgery

1. Clinical Approach to Routine Castration
2. Treatment and Management of Castration Complications
3. Clinical Approach to Umbilical Hernias
4. Clinical Approach to Applied Anatomy of the Paranasal Sinuses

Neurology

1. Clinical Approach to Neurologic Disease
2. Clinical Approach to Head and Spinal Trauma
3. Clinical Approach to Neurologic Evaluation
4. A Focus on Neurolocalization

SPORTS MEDICINE REHAB AND TRAUMA

Lameness and Sports Medicine

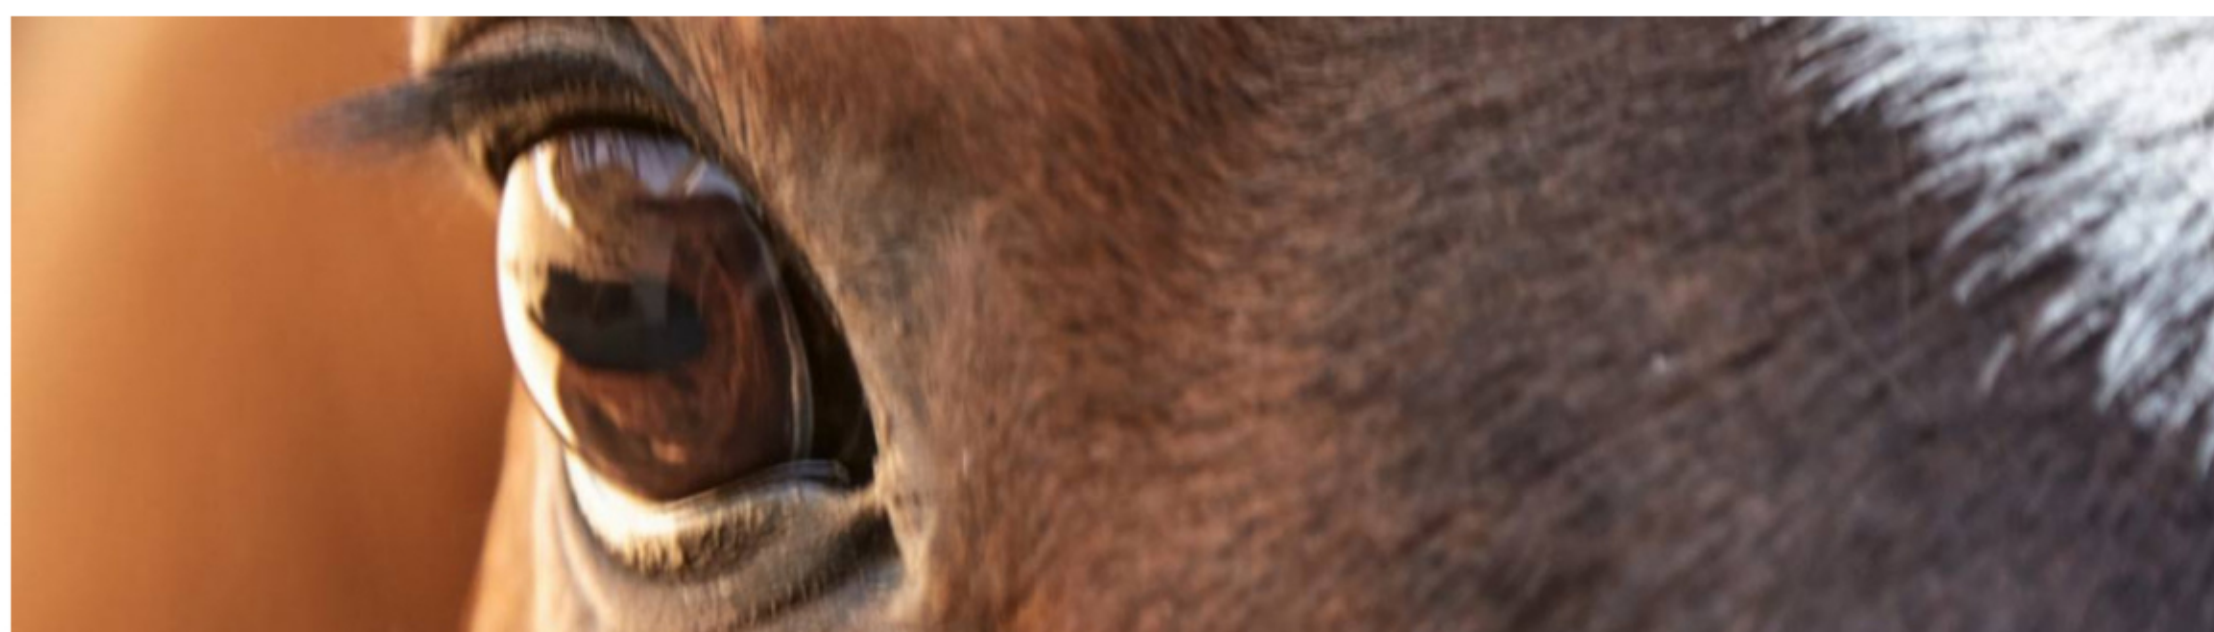

1. Clinical Approach to a Horse with a Sore Back
2. Clinical Approach to a Mildly Lamé Horse
3. Clinical Approach to the Mildly Lamé Horse: Under Saddle
4. How to Apply the Ridden Horse Pain Ethogram
5. Veterinary Management for High-Performance Horses: Jumpers and Eventers
6. Shoeing Options for Injury Management
7. Clinical Approach to Anatomy of the Distal Limb for Joint Injections
8. Clinical Approach to Anatomy of the Hock for Joint Injections
9. Clinical Approach to Carpus and Stifle Anatomy for Joint Injections
10. Clinical Approach to Postural Evaluation for Lameness
11. Practical Approach to When to Refer a Lameness for Advanced Imaging
12. Selection and Use of Intra-Articular Therapies
13. Clinical Approach to the Muscular Examination
14. Lameness in the Geriatric Horse – Part One
15. Lameness in the Geriatric Horse – Part Two
16. Flexural Limb Deformities of the Foal
17. Clinical Approach to Proximal Suspensory Desmitis

Rehab

1. The Physiotherapists Approach to Rehabilitation
2. Evidence for Exercise Modalities in Rehabilitation
3. Introduction to the Principles and Application of Rehabilitation
4. Exercise Programs for Rehabilitation
5. Adjunctive Therapies in Rehabilitation
6. Rehabilitation and Management of Osteoarthritis

Wounds and Trauma

1. Clinical Approach to Management of Simple Wounds Part One: Assessment
2. Clinical Approach to Management of Simple Wounds Part Two: Treatment
3. Clinical Approach to Wound Immobilization Part One: Principles and Splints
4. Clinical Approach to Wound Immobilization Part Two: Casts
5. Clinical Approach to Management of Exuberant Granulation Tissue
6. Clinical Approach to Preparing the Wound for Closure
7. Clinical Approach to Management of Complex Wounds Part One: Principles, Distal Limb, and Synovial Structures
8. Clinical Approach to Management of Complex Wounds Part Two: Distal Limb Con't, Head and Body Wall Injuries
9. Clinical Approach to Traumatic Injuries of the Foot and Distal Limb
10. Closing Wounds Under Tension
11. Clinical Approach to Wounds Involving Synovial Structures
12. Clinical Approach to Sudden Death in the Equine Athlete
13. Practical Approach to Application and Management of a Foot Cast
14. Clinical Approach to Heel Bulb Lacerations
15. Clinical Approach to Fractured Splint Bones
16. Clinical Approach to Wound Healing – – Part One

SPECIALTY & FOCUS AREAS

Dermatology

1. Clinical Approach to the Equine Sarcoid I: Clinical Signs and Classification
2. Clinical Approach to the Equine Sarcoid II: Treatment and Prognosis
3. Clinical Approach to the Horse with Pruritus: Part One
4. Clinical Approach to the Horse with Pruritus: Part Two
5. Clinical Approach to the Horse with the Granulomatous Mass
6. General Approach to the Dermatology Patient
7. Clinical Approach to Diagnostics of the Dermatology Patient
8. Equine Melanomas

Ophthalmology

1. The Ophthalmic Exam I: Practical Anatomy and Vision Testing
2. The Ophthalmic Exam II: Corneal Colors and Diagnostic Tools
3. Superficial Corneal Ulceration I: Pathogenesis and Healing
4. Superficial Corneal Ulceration II: Management
5. The Equine Eyelids
6. Clinical Approach to Deep Corneal Ulcers – Part One
7. Clinical Approach to Deep Corneal Ulcers – Part Two
8. Clinical Approach to Uveitis

Dentistry

1. The Oral Examination and How to Do Dentistry – Part One
2. The Oral Examination and How to Do Dentistry – Part Two
3. Dental Radiology
4. Periodontal Disease in Horses – Part One
5. Periodontal Disease in Horses – Part Two
6. Clinical Approach to Geriatric Dentistry
7. Dentistry in Miniatures

Donkeys and Mules

1. Practical Approach to Common Issues in Donkeys
2. Castration of the Donkey: Anesthesia and Surgery
3. Anesthesia and Analgesia of the Donkey
4. Clinical Approach to Drug Use for Donkeys vs Horse
5. Clinical Approach to Dental Work in the Donkey
6. Practical Approach to an Overview of Hoof Diseases in the Donkey
7. Clinical Approach to Donkey and Hybrid Sedation

Nutrition

1. Vitamin E in Horses
2. Selenium Deficiency
3. Common Findings with Diet Analysis
4. Clinical Nutrition for Common Equine Conditions – Part One
5. Clinical Nutrition for Common Equine Conditions – Part Two

REPRODUCTION & NEONATES

Repro and Neonatology

1. Clinical Approach to Diarrhea in the Neonate
2. How to Apply to Madigan Foal Squeeze Technique
3. Practical Approach to Reproductive Examination of the Mare
4. Clinical Approach to Reproduction Diagnostics
5. Practical Approach to the Logistics of Breeding Management
6. Clinical Approach to Managing Endometritis
7. Practical Approach to Semen Evaluation
8. Clinical Approach to Neonatal Isoerythrolysis
9. Clinical Approach to Lameness in the Foal
10. Clinical Approach to Angular Limb Deformities of the Foal
11. Practical Approach to Foaling and Dystocia – Part One
12. Practical Approach to Foaling and Dystocia – Part Two

Foal Medicine

1. Clinical Approach to Neonatal Intensive Care (Including Dummy Foals)
2. Clinical Approach to Failure of Passive Transfer and Plasma Administration to a Foal
3. Fluid Therapy in Foals
4. Clinical Approach to Anesthesia of the Foal
5. Diagnosis and Management of the Acute Abdomen in Foals
6. Clinical Approach to Stabilizing the Foal in the Field

CLINICAL FOUNDATIONS & CORE PRACTICE

Equine Practice

1. Practical Approach to Saddle Fitting for Veterinarians
2. Overview of Common Symptoms of Poor Saddlfit
3. Fundamentals of Equine Acupuncture
4. Practical Approach to the Pre-Purchase Examination Part One: Communication and Examination
5. Practical Approach to the Pre-Purchase Examination Part Two: The Report
6. Euthanasia and the Intrathecal Lidocaine Technique
7. The Use of AI in Equine Veterinary Medical Record Keeping
8. Marketing in a Changing World

Fieldwork & Emergencies

1. Practical Approach to Saddle Fitting for Veterinarians
2. Practical Approach to Large Animal Emergency Rescue
3. Practical Approach to Road Traffic Accidents Involving Horses
4. Practical Approach to Equine Disaster Management – Part One
5. Practical Approach to Equine Disaster Management – Part Two
6. The Veterinarian's Role in Flood Rescue of Large Animals
7. Large Animal Ambulatory Vehicle Design: Tips, tricks, and Traps on Veterinary Vehicles
8. Practical Approach to Managing Horses in Holes, Pools, and Ditches Step
9. Step by Step Pre-Purchase Examination – Part One & Two

Professional Practice & Career Development

1. Practical Approach to Salary and Workplace Negotiations
2. Practical Approach to Mental Health in Equine Practitioners
3. Career Planning for New (and Not So New) Graduates in Equine Practice
4. Clinical Approach to Use of Off-Label Medications
5. Practical Approach to Thriving in Equine Practice
6. Optimizing Patient Outcomes in Budget-Restricted Cases
7. How to Deal with Veterinary Board Complaints

Business Essentials & Practice Management

1. Practical Approach to Fee Setting in Equine Practice Part One: Principles of Pricing
2. Practical Approach to Fee Setting in Equine Practice Part Two: Value-Based and Cost-Based Pricing
3. Practical Approach to Client Communication Part One: Face to Face
4. Practical Approach to Client Communication Part Two: Culture and Emergency Situations
5. Practical Approach to Managing the Difficult Clients
6. Practical Approach to Clinical Record Keeping
7. Practical Approach to Positive Veterinary Workplace Culture
8. Practical Approach to Systems and Processes
9. Practical Approach to Leadership and Staff Management
10. Recruiting New Employees
11. Practical Approach to Adding Staff to Your Equine Practice
12. How to Introduce a New Service in Your Veterinary Practice
